QUILTED SOFA BY JOSEPH HOFFMANN

\$7,530

DESCRIPTION

Brimming with timeless elegance, this iconic design was developed in 1910 for a Buenos Aires-based exhibition. Hoffmann had a distinctive preference for square, geometric forms, which earned him the nickname of "Quadratstil" (from the German "quadrat" for square). The wooden frame is padded with cold-cured, flexible polyurethane rubber and upholstered with luxe, quilted black leather. Eco-leather is also available on request to the Concierge. The wide, double seat is 41 cm high.
