RABBIT BOTTLE OPENER

\$75

---

## DESCRIPTION

This exquisite bottle opener will make a statement on any occasion, thanks the masterful way its handle is shaped to resemble the head of a rabbit, depicted in all its vivid detail and an alert expression. The animal is made of acetate with a wooden-like finish and the texture mimics the rabbit fur in a charming, life-like way. This whimsical accessory's metal part is made of brass with a nickel finish that strikingly contrasts with the warm hue of the top of the piece. A wonderful addition to any home and a great idea for a gift.
