RADETSKY STUHL YELLOW CHAIR BY MICHELE DE LUCCHI

\$980

DESCRIPTION

This stunning chair was designed by Michele de Lucchi in 2015. Inspired by the steam-bent beechwood silhouettes, this piece is an elaborate combination of linear elements and sumptuous curves, creating a dynamic and sophisticated work of functional decor. The structure's yellow hue and matching plywood seat will add a pop of color in a monochromatic modern living room or a minimalist dining room.
