**RALFT VASE**

\$1,630

## DESCRIPTION

Distinguished for its highly playful aesthetic and dynamic silhouette, this unique vase will be a whimsical accent in any living room or entryway decor. Designed by Alessandro Zambelli, this vase is from the limited-edition Macrocosmos Collection, wholly conceived and made using a 3D printer with FDM technology. Reminiscent of a bee, the black disc with tall red antennae rests atop a lime-green cylindrical body dotted with colored ergal and brass nail embellishers and a concentric yellow-black striped base, creating a visually striking and textured object of functional decor.
