RED ARMCHAIR

\$3,490

DESCRIPTION

This delicate armchair was made entirely in solid wood and its gentle curves will enrich a classic decor. The slender front legs continue upwards to create the structure for the armrests, while the welcoming back cushions envelope their guest and are upholstered in leather on the inside and in fabric on the outside. Elegant and sophisticated, this chair can be an accent piece in the entryway or bedroom, or a charming addition to a living room or study.
