Vincenzo Romanelli

RED DEER STAG SCULPTURE

\$9,500

DESCRIPTION

Symbol of spiritual authority, a red deer stag is here depicted in all its magnificent elegance. Vincenzo Romanelli studied this animal up close in the wilderness of the Scottish Highlands and created a clay model. When he returned to his Florentine foundry, he made the bronze sculpture using the lost-wax casting technique. The result is a superb rendition of the majestic animal with a bronze patina that reflects the red undertones of the male's coat. This is one of 12 sculptures in a limited series, each one signed, dated, and numbered.
