RED DROPS BOWL

\$290

DESCRIPTION

A stunning addition to a personal collection, a thoughtful housewarming gift, or a splendid centerpiece in a rustic or modern interior, this remarkable bowl is crafted and painted entirely by hand. Capturing the elegant simplicity of abstract art, the decoration (also featured on the back) showcases large concentric bands in shades of red over a white background. Distinctive spills of color are intentionally left to mark the moment the brush touches the ceramic, underlying the handcrafted quality of the process.
