RED GLASS SCREEN

\$20,400

DESCRIPTION

Inspired by Art Deco elegance, this screen is a bold accent that will exude vintage charm into a bedroom, living room, or bathroom. Distinguished for its unique combination of materials and finishes, the screen is composed of a wooden frame finished with black Chinese lacquer, and mouth-blown glass panels in deep red. The lavish, bas-relief floral design is expertly rendered with hand-engraving techniques in the Acquaforte tradition, creating a visually striking textural and color contrast.
