RED SCOTT TABLE

\$1,195

DESCRIPTION

Daring design and color choices make this lavish table a one-of-a-kind addition to any modern-style decor. Inspired by modernist art, the solid silhouette is cleverly created by superimposing two concentric rectangles, the larger one acting as the table surface and the smaller one as a subtle, yet sturdy, supportive base. The glossy lacquered finish in dazzling red adds harmony and understated elegance to the piece. This piece is made out of medium-density fiberboard for a light-weight and portable design.
