## RED SQUARE FLORENTINE BOX

\$80

### DESCRIPTION

Elegant and versatile, this traditional box is a testament to traditional Florentine craftsmanship. The dainty square box is made of repurposed wood and hand painted with acrylic tempera paint with a marbled texture obtained by applying color with a sponge. The vibrant red bottom is topped with a white lid bearing a six-pointed star motif framed by a green circle and stylized flower accents. This must-have box is the perfect accessory on an entryway console or bedroom dresser for storing precious keepsakes. It was painted with natural pigments and finished with a protective beeswax coating.
