REFLECTS CONSOLE BY SAM BARON

\$6,590

DESCRIPTION

A versatile silhouette that combines functionality with meticulous research on volumes, this console table by Sam Baron plays with different materials to create a unique design. The elegant nickel structure features a linear top in Canaletto walnut supported by a square section that curves into a round shape at the feet. The metal can also be finished in glossy brass or bronze while the top can have a natural or stained finish for a striking textural contrast. The piece includes two white ceramic hand-turned vases to add a three-dimensional quality, please consult the Concierge for details.
