RELAX ARMCHAIR

\$8,810

DESCRIPTION

Getting its name from its comfortable silhouette, featuring a tall backrest with a convex, enveloping shape and plush armrests, this armchair is a precious addition to a study or living room. Either to seat with a good book, or to entertain in a relaxed environment, this chair is a cozy and elegant must. Its solid structure is upholstered with a sophisticated patterned grey velvet cover and accented with black piping that mirrors the black matte finish of the beechwood feet. Two decorative pillows complete this striking look.
