Sambuco

RENAISSANCE CENTERPIECE

\$770

DESCRIPTION

The traditional decorative themes of Deruta ceramics are interpreted with a modern sensibility in this Sambuco design, infusing elegance into any interior. This superb centerpiece will enrich the look of a classic or contemporary dining room with its conical shape supported by four ornate feet. The sinuous curves of the yellow floral motifs contrast with the black background adorning both the internal and external surface of the bowl, infusing a striking dynamism to the piece.
