RIALTO BLUE VASE

\$1,030

DESCRIPTION

Part of a collection of objects entirely crafted of mouth-blown Murano glass, this vase is one-of-a-kind, whose small variations in color and shape are precious marks of its artisanal production. The round shape of the vase boasts a dramatically flared mouth adorned with a series of bas-relief spheres on the top half and a delicate blue shade, while the bottom half is plated in 999 silver using the proprietary SilvanSputteringAg technology.
