RICCIO WHITE VASE

\$360

DESCRIPTION

Inspired by the distinctive shape of sea urchins, this ceramic vase showcases a white enamel finish that enhances its exquisite details and curved lines and exudes visual harmony. Decorated with vertical ridges that delineate sections accented with raised bumps, this vase is made by hand on a lathe, using the ancient "colombino" technique. Perfect in any interior decor, either as a cachepot or decorative display with other white pieces of the same series, this vase will be the perfect choice for those who want to have a unique, handcrafted ceramic piece in their home.
