RICHARD CHAIR

\$1,815

DESCRIPTION

Featuring a bold combination of patterns, this refined chair has a classic silhouette that will lend an upscale air and sophistication to a classically furnished and modern living room. The wooden frame stands on four legs in a matte black finish and features a tall back with a cut-out demilune and tapered armrests that slightly descend to the front of the seat. Entirely padded with fiber-covered, multi-density polyurethane foam, this chair is upholstered with two different velvet fabrics: beige floral on an ivory background on the front and a geometric pattern in the same palette on the back.
