RIDDLED FRONT SIDEBOARD BY STEVEN HOLL

\$6,880

DESCRIPTION

An example of advanced technology designed by Steven Holl, the distinctive and spectacular element of this sideboard is its thin, wooden door boasting a laser-cut fretwork that radiates the internal LED lights (input 100-240V -Europlug CEE 7/16) through, projecting a mesmerizing myriad of shadows around the piece. The structure is made of walnut wood (also available in MDF) and features inside clear tempered glass shelves (5 mm thickness) with beveled edges. Please ask the Concierge for further details.
