RIMINI RAME STANDING HORSE FIGURINE BY ALDO LONDI

\$670

DESCRIPTION

Distinguished by a warm luster and impeccable craftsmanship, this ceramic figurine of a standing horse is a true work of art that will enliven a console or table in a modern or classic living room or study. The stylized silhouette evokes the ancient Roman and Greek clay horses, complete with its regal stance and detailed mane, saddle, harness, and tail. Crafted using the slip-casting technique, the white clay is decorated by hand while still raw with ornate engravings, highlighted by the lustrous metallic copper finish obtained with a third firing in the kiln.
