RIPPLE VASE BY STUDIO DILLON

\$6,960

DESCRIPTION

Sophisticated in its simplicity, this exquisite vase will add a touch of elegance to a bookcase or side table in a minimalist living room. The hand-blown clear vase is brought to life using the Venetian "filigree" technique, in which thin white glass rods are incorporated into the glass in two hot-working phases: the resulting piece has a striking criss-cross pattern that reveals the timeless and captivating character of glass. The balloon-shaped vase, with its narrow mouth and round body, is ideal to display as is or with a tall-stemmed flower. Limited edition of only 50 pieces. Designed by Studio Dillon.
