RIPPLES STOOL BY TOYO ITO

\$970

## DESCRIPTION

An impeccable example of refined craftsmanship, this stool designed by Toyo Ito is crafted of plywood composed of five different types of wood (walnut, mahogany, cherry, oak, and ash). The seat shape, carved with industrial technology yet entirely hand-finished, boasts a soft texture due to the ductility of wood and Horm's passion for craftsmanship. The sides of this piece are equipped with a footrest in extruded anodized aluminum, completing the functional and elegant design of this stool.
