## ROCK NEW SAINT LAURENT TABLE

\$19,950

### DESCRIPTION

This exquisite table will enrich the look of a dining room in both a classic or contemporary decor. The simple structure, made of four legs and a top assembled together so that the parts appear sculpted from a solid block, is crafted of New Saint Laurent marble. The minimalist silhouette is enriched by the exquisite natural veins of the stone, treated with a three-dimensional weathered finish that further increases its preciousness. Designed by Alberto Colzani in 2013 for the Rock collection, this piece is also available in white Carrara or Cipollino marble. Customization upon request.
