ROCK TALL SIDE TABLE

\$3,250

DESCRIPTION

Part of the Rock collection, designed by Alberto Colzani in 2015, this tall side table is crafted entirely of New Saint Laurent marble (also available in Carrara or Cipollino). The five parts that make up this sophisticated and modern piece - four legs and top - are assembled together to create a table that seems to be made of a single block. The natural pattern of the thin white veins over the dark background of the stone adds a one-of-a-kind decoration that is further enhanced by the weathered treatment applied. Other marbles and finishes are available - please ask the concierge.
