ROCOCO SIDEBOARD

\$7,540

DESCRIPTION

The sinuous volumes of this elegant sideboard are inspired by French Rococo style, with its ornate details and sensual silhouettes. The sideboard's cabriole-style legs support a generous cabinet with a curved lower profile, while the two front doors open to reveal ample storage space. The plywood structure is veneered with Tanganyika wood and decorated with a modern pattern of crossing parallel lines in a timeless color combination of cream and gold for a superb effect in a classic or traditional interior.
