ROMA COFFEE TABLE

\$920

DESCRIPTION

The unique structure of this round coffee table is made of 8 x 8 mm steel rods with Roman numbers around the base and an extra-clean crystal round top. This piece will make a statement thanks to the combination of the steel, painted with the use of epoxy resins in a striking shade of copper-black sablè, and the crystal, sanded to obtain an irregular decorative pattern. For a dynamic effect in a modern living room, this table can be paired with the Roma Short Coffee Table.
