ROSSO FICUS INDICA SET OF 4 TILES #6

\$135

DESCRIPTION

A dynamic illustration of Sicilian majolica art, these tiles will be a statement piece that will elevate any decor with its rustic and handmade quality. From the Natura Collection, these four, ornate tiles merge to reveal a stunning design recalling late-Renaissance decorative art. The mirrored design is dominated by a variety of bold fronds and leaf motifs that create a dynamic array of forms and colors, swirling around a central floral motif. The ivory-toned motifs and delicate accent shapes in the corners stand out against the bold red background. Best showcased in a bathroom or kitchen.
