## ROYAL MEDICINAL CABINET BY LEA CHEN

\$25,610

### DESCRIPTION

Paired with the Auspicious Dresser in the same evocative collection by Lea Chen, this cabinet will create a unique display, while also providing storage space in any room in the house. Its structure is reminiscent of the Chinese pharmacy cabinet, called Yaochu, or "the hundred-eyed cabinet". Refined and modern, this piece will look stunning in a modern home. The steel structure features a lavish coating for base, top, and handles in 24k gold, while the body of the piece and three drawers are lacquered matte blue outside and red inside.
