\$38,940

DESCRIPTION

Designed by Studio Job in 2014, this hand-knotted rug is made in Nepal by local artisans. Reminiscent of the eclectic images created by a kaleidoscope, this exceptional rug blends geometric shapes with vibrant threads in red, green, blue, and yellow to reveal a dynamic, three-dimensional work of functional decor. This round rug is part of a limited edition of only ten pieces and features 200 knots per inch in a 5mm-height pile.
