AV Metal

SA CIAI VASE

\$440

DESCRIPTION

This attention-grabbing steel vase can be displayed as a standalone item or arranged with the other two that compose the series from AV Metal. The elegant, bias-cut profile will complement any modern interior with its black finish and polished-gold hand engraving depicting a traditional Sardinian textile art from the town of Sarule. The vertical line intersected by small horizontal bands is called Sa Ciai ("the key"), inspired by the big wooden keys used in ancient times. Forged, decorated, and engraved exclusively by hand, each piece will be unique.
