*AV Metal*

**SA ROSA VASE**

\$290

## DESCRIPTION

Steel becomes a dynamic work of art in the masterful hands of AV Metal who forges and decorates each piece entirely by hand. This black-finished vase is cut on the bias and engraved with a golden rhombus called Sa Rosa ("the rose"), a universal symbol of beauty and elegance linked to the woman and, in a wider sense, to life. This motif belongs to the Sardinian textile tradition from the Sa Burra carpet hand-woven with local raw materials. A stand-alone accent in any decor, the exclusively manual crafting creates small variations in each piece that guarantee their originality and craftsmanship.
