SACRED GEOMETRY DRUM LAMP

\$8,640

DESCRIPTION

The brilliantly polished surface of this drum-shaped lamp is mesmerizing to behold. The perfectly symmetrical geometric shape that the brass sheets comprising the lamp make is just as enthralling. A process involving a CNC cutting machine is used in the creation of this piece, allowing for extreme precision and accuracy, reproaching forms stemming from the study of sacred geometry. An LED light is inserted behind the brass body of the lamp creating a sophisticated ambiance.
