SAND 2 JOINT ONE-FLOWER VASES

\$205

DESCRIPTION

Marked by visual balance and organic texture, this vase from the Sand Collection creates an evocative display in any interior decor. The singular shape is obtained by joining two cylinders in hand-folded white Limoges porcelain of different heights. Entirely handcrafted, the biscuit finish adds an earthy allure that is enhanced by the dusting of black porcelain powder along the base of each cylinder. Displayed in elegant clusters with other vases by the same designer, this piece can be filled with flowers or left unadorned to showcase its unique allure. The height and black dusting may vary.
