*Serena Confalonieri*

**SANTISSIMI #2 TRAY**

\$660

## DESCRIPTION

This elegant tray is made with colorful slabs of stained glass joint together with iron that strikingly complements the pastel color palette of the glass. The ancient technique used to decorate cathedrals' windows is reinvented to suit a contemporary piece. Colors and silhouette, inspired by modern architecture, are a minimalist take on the window decorations in Milan's cathedral, the Duomo.
