SASSI FIORITI SCULPTURE #07

\$545

DESCRIPTION

This small, extremely gentle and delicate floral sculpture features a flat, wide blossom glued to a stone-shaped base, offering strong contrasts in color and surface texture. The base is made from red clay with copper and crystalline details, while the raku-fired, fireclay bloom has a metallic violet-gold finish. This piece is inspired by the beauty of daylily and hibiscus flowers.
