SATIN ANTHRACITE #2 WALLPAPER TRACCE COLLECTION

DESCRIPTION

Made by Timothée Narduzzi, "Tracce" is part of a series of hand-made decorative panels. The artwork is painted on wood and with a mixed technique. Starting from an abstract decoration, it is then divided into modules and reassembled like a mosaic. The support and the relief painting technique give three-dimensionality to the work; between painting and bas-relief the decorative panel stands out from the wall.
