SATIN ROUND BRASS TRAY

\$465

DESCRIPTION

This round tray is part of the Satin collection, made of pieces of iron covered in brass (like in this case) or copper. The linear simplicity and striking silhouette of this piece is inspired by the silver objects of the Bauhaus movement and they will bring elegant touches of color and contemporary elegance to any occasion. A piece of functional decor, this tray can be paired with others of the same shape and finish or different ones to add dynamism to a dining room or living room.
