SATURNINO DINING TABLE

\$7,800

DESCRIPTION

Handcrafted of solid walnut wood, this remarkable piece is a so-called "fratino", a typical table of the medieval convents' refectories characterized by a long and narrow shelf resting on solid feet, connected by a long longitudinal crosspiece. A perfect balance of traditional forms and modern functionality, the wooden parts are held by slot-in joints and brass pins that echo the brass insert that runs along the entire length of the top.
