### DESCRIPTION

This magnificent piece of functional decor is a crystal vase shaped as a calla lily flower. The classically inspired design makes this object a superb addition to a traditional decor. The 24% PbO polished crystal curves at the bottom, to open up in delicate curls at the mouth. It is supported by an ornate base in bronze with a French gold finish. A piece that will add lavishness to any room, this vase can be displayed by itself, or combined with other objects by the same designer.
