SCATOLA DELL'ALLEGRIA CERAMIC CENTERPIECE

\$410

DESCRIPTION

This collector's item is part of a line of ceramic vessels designed in 2009 by Tullio Mazzotti in honor of the centenary of the founding of the Futurist Movement. Scatola dell'allegria and the other pieces of this collection are based on original designs by the author. They are beautifully executed with the same passion, materials and manufacturing techniques used since the founding of the Mazzotti company, in Albisola, the "Free Republic of the Arts," as Filippo Tommaso Marinetti christened it.
