SCAVO MULTICOLORED ORANGE VASE

\$620

DESCRIPTION

This exquisite Murano glass vase features a body in vivid orange with the contrasting edge of the mouth in striking green and a pair of handles in yellow finished with the "scavo" technique (obtained by applying on the hot glass a dust of salt and minerals that corrode its surface giving it an aged look). Both the design and the finish are originally from the 80s but the contrasting colors make this object a modern, new piece.
