SCHAUKELSTUHL WHITE ROCKING CHAIR BY GEBRÜDER THONET

\$1,775

DESCRIPTION

This exquisite rocking chair is part of a collection designed by Gebrüder Thonet in 1885. It boasts two iconic features in this brand's aesthetic: the Viennese straw that covers its back and seat, and the steam-bent beechwood structure, with its elaborate curves that enliven the area between the curved base and the top. The white lacquer of the finish adds charm and a romantic flair to the piece.
