SCINTILLA CEILING LAMP

\$710

DESCRIPTION

A precious ceiling lamp, this piece will make a statement for its elegance and modern flair. The glass elements are crafted using the "rostrato" technique, interpreted here in a modern way, by pulling the strands of glass till their limit and create a series of striking spikes that evoke many sparks ("scintilla" in Italian). Each spark contains a small light to enhance this symbolism and create a truly unique and exquisite piece that is sophisticated and masterfully crafted. Customization is possible. Please ask the concierge for details.
