**SEA DROPS CONSOLE BY CARLO RAMPAZZI**

\$14,815

## DESCRIPTION

Superb in its ironic and eccentric aesthetic, this artful console is sure not to go unnoticed. Raised on dynamic sleigh legs with an original L-shape and matte black finish, the wooden tabletop gets minutely carved by hand to obtain a hyperrealistic effect of sea drops overflowing at the sides and creating an authentic dripping skirt. The polished blue lacquer is enhanced by a glass paste finish that evokes the transparencies of water.
