SEDICI 4-DOOR SIDEBOARD

\$8,810

DESCRIPTION

Captivating from all sides, this exclusive cabinet features a solid wood structure with four doors that open to a generous storage area. The eye-catching texture of the piece is crafted by masterfully assembling the 45-degree cut pieces to create an "en relief" geometric pattern of great visual impact. This dynamic texture envelops the entire cabinet and is enhanced by the natural wood grain. The doors have a push-open system to preserve the harmony of the design. A truly unique piece that will complement any decor, this sideboard is best displayed with minimal accents.
