## DESCRIPTION

This elegant "milanese" piece is used in pubs and cafés, but also by those who sit for hours every day in an office. Small and resilient, Seggiola is still made by hand, using perfectly interlocking joints. Pure linseed oil is used to treat the wood, to enhance the grain but also to make it water repellent as well as improve the gloss and generally prolong the life of the product. Different finishes are available, please ask Concierge for details.
