SEGNI CONIC CEILING LAMP

\$870

DESCRIPTION

This elegant ceiling lamp features an egg-shaped glass shade, contained by a net of delicate metal in patterns of rectangles and triangles, forming a cone around it, which is suspended from the ceiling. The glass appears to be barely contained in its metal structure and its opaque finish will spread the light uniformly throughout the space. Modern and classic at the same time, this piece will be a magnificent addition to any decor and is suitable for any room in the home.
