### SELF PORTRAIT NATURAL WALL MIRROR

\$320

#### DESCRIPTION

Inspired by the shape of the fan, this wall mirror is feminine and elegant, an accessory that symbolizes luxury and beauty, for any wall in the house. Expert Italian wood workers carved the structure out of cherry wood, recreating the delicate wrinkles at the base of the piece, while the double-face mirror is made from a sheet of galvanized steel. The finish of the wood is natural, and the mirror has a nickel finish. A base included allows it to be used as a table lamp.
