Mingardo

SEPARÉ ROOM DIVIDER

\$2,095

DESCRIPTION

This versatile divider is a multi-functional piece of design that can be crafted in brass or varnished iron. It was made entirely by hand and its vertical metal frame mixes with the gentle curves of its top and bottom. The translucent natural fabric that covers the frame is a porous screen that divides the space. The other version, in brass, is equipped with multi-purpose racks. Designed by Omri Revesz and Damian Tatangelo, this piece will enrich the space, making it dynamic and ever-changing.
