## SERENDIPITY DESK

\$7,980

### DESCRIPTION

The understated contours and refined details give the Serendipity desk extreme elegance. Its functional elements are able to satisfy various needs. The openings which are covered by brass stoppers have been designed to allow PC cables through and/or to be able to hold a container for stationery or a vase of flowers. The wheels which have brass detailing allow for mobility. The drawer is extractable and can be collocated both on the left and right sides. The sides of the desk allow room for hanging objects. The polished brass elements are intended to patina over time and create a graceful character.
