SESANN ARMCHAIR BY GIANFRANCO FRATTINI

\$6,230

DESCRIPTION

Designed in the '70s by Milanese architect Gianfranco Frattini, this armchair is an exquisite example of elegance and comfort. Either used at home, to add sophistication to a modern living room, or as standout piece in an office, this object of functional decor combines the strength of steel, here powder-coated in charcoal grey, the tradition of the ash wood feet, and the plush comfort of cushions in cold foam upholstered with leather.
