**SET #8 BLACK AND WHITE PLATE AND CHARGER**

\$140

## DESCRIPTION

Part of the black and white collection of ten table settings comprised of one charger and one deep plate, this set will bring a touch of sophistication to any home. These plates were handcrafted by expert artisans using clay from an Etruscan cave. The bold patterns in this classic combination of black and white glazes create a striking contrast with the solid black of the under-plate. This elegant set can stand alone or be paired with other settings in the collection for a striking look.
